Re: Intelecall Communications

Gentlemen:

Today I called the telephone number (800) 868-7170 for Intelecall Communications, which was given in the letter from Tele King Communications Corp dated February 27, 2003. I asked for Extension 207. The operator asked my name and then I was connected with someone who said he was Cary. I asked what his last name was and he said, "Krugley", and spelled it for me.

I told him I was a distributor and he asked if I wanted to order cards. I told him I wasn't ready yet, but just wanted to ask about the letter we had received from Tele King Communications Corp. I asked if they were taking over for Tele King. He said that they were taking over for Tele King and that they would be able to give us a better deal on some cards. I asked if we would be selling Intelecall cards and he said that we would be selling Intelecall cards. He said that we had already been selling Intelecall cards. I said I thought we had been selling Radiant cards and he said that we had sold Radiant cards also. He said they would be able to give us a better deal because they had cut out the middleman. At that point I told him that was the information I needed and he said to call him when I needed more cards. That ended our conversation.

Sincerely,

A handwritten signature in black ink, appearing to read "Nelda Waldron". The signature is fluid and cursive, with the first name "Nelda" and last name "Waldron" clearly distinguishable.

Re: Tele King Communications Corp  
11900 Biscayne Blvd., Miami, FL 33181

Gentlemen:

In May 2002 we saw a commercial on television for Tele King Communications Corp advertising a home business. I called the number shown in the ad to get information about this business. My first contact was with Barry Goodman. I talked to him a couple of times. The following is, to the best of my recollection and from my notes, what he said to me during those conversations.

1. He said it was a turnkey business.
2. We would be selling prepaid telephone cards.
3. The cards would be in denominations of \$5, \$10 and \$20.
4. They have the best rates in the industry.
5. The cards sell well.
6. The units weigh less than 15 lbs.
7. The units say, "buy your telephone cards here", in English and Spanish when people walk by.
8. The units sell the cards.
9. The units bolt to the counter or to a wall.
10. World wide service.
11. No inventory.
12. They will help place the displays.
13. Business 24 hours a day.
14. He said they would hire one distributor for every 40,000 people in a county –  
They were hiring 32 distributors for the 1,545,000 people in Riverside County.  
They were hiring 57 distributors for the 2,846,000 people in Orange County.
15. They get the locations for you.
16. We would have our own territory.
17. We would be able to pick our own territory.
